# Introduction

Did you know that if your vehicle is written off as a total loss through an accident, fire, theft, natural disaster or even adverse weather conditions, most insurance companies would only pay the current market value of the vehicle, and not the market value when you bought it?

For example, if a vehicle costing £10,000 was written off after 12 months, most insurance companies would pay out the current market value, which might only be £8,000.

If you wanted to then replace your vehicle, you would have to find the difference.

Or, if you had taken out finance to spread the cost of paying for your vehicle, then you could find that the amount received from your insurance company was less than the amount you still owed on your finance agreement.

In either event, you could be out of pocket - this is where Black Horse Motor Finance GAP Insurance can help you.

# The benefits of GAP

There are two different cover options:

## Retail Price Protection GAP

Our 'Retail Price Protection' GAP could return you to the original position you were in when you first purchased the vehicle for up to a maximum period of 36 months, if your vehicle is written off and a total loss payment is made by your motor insurer. Retail Price Protection GAP could pay you the difference between the amount paid out by your motor insurer (or the market value of your vehicle as defined by Glass's Guide, whichever is the greater) and the amount of your original invoice price (or the early settlement amount if the vehicle is subject to a finance agreement and the early settlement amount is greater than the invoice price). The maximum benefit levels are shown in the table below.

If the vehicle is subject to a finance agreement, any payment under Retail Price Protection GAP will be paid direct to the finance company on your behalf, and if there are any excess funds, these will be sent to you direct, subject to the maximum benefit levels shown in the table below.

## Financial Shortfall GAP

Our alternative product is designed to protect you during the term of your finance agreement, up to a maximum of 60 months cover, if your vehicle is written off and a total loss payment is made by your motor insurer. Financial Shortfall GAP could pay the difference between the amount paid out by your motor insurer (or the market value of your vehicle as defined by Glass's Guide, whichever is the greater) and the amount still outstanding on your finance agreement, subject to the maximum benefit levels shown in the table below.

This should enable your finance agreement to be settled leaving you to concentrate on purchasing another vehicle.

Vehicle Invoice/Purchase Price	Retail Price Protection GAP Maximum Benefit	Financial Shortfall GAP Maximum Benefit
£0 - £25,000	£10,000	£10,000
£25,001 - £50,000	£20,000	£20,000
£50,001 - £125,000	£25,000	£25,000

Policy exclusions and limitations may apply, a summary of which appears on pages 7 and 9. Details of all exclusions and limitations are noted in the policy, a copy of which is available on request from your dealer.
